

NORDICLINE MD3 E-VISIO

Multideck cabinets

Two multideck cabinets in one.

Easy to place anywhere in the store, NordicLine MD3 e-Visio offers a massive display area for a modest footprint.

Two-sided space saver

Changing demographics and busy lifestyles are shifting shopping habits. While grocery stores are getting smaller, choice is certainly not – on the contrary! Epta has responded to the convenience environment with NordicLine MD3 e-Visio, a two-sided space saver that combines two remote multidecks into one compact cabinet. In contrast to a traditional back-to-back multideck set up, NordicLine MD3 e-Visio gives entirely new options for exploring unique store layouts and concepts. Its unique design saves up to 30% of floor space. With a light see-through structure and modern looks, NordicLine MD3 e-Visio's 360° glass surface and depth of 1460 mm provide the largest possible total display area and a huge choice of options for a given space.

Lowering the life cycle costs

NordicLine MD3 e-Visio is up to 50% faster to install than a traditional, one-sided multideck and requires less plumbing. Epta's innovative patented e-ncore air curtain technology, all glass doors and EC fans mean that NordicLine MD3 e-Visio is energy efficient; superior temperature performance maintains optimal conditions and minimises food waste.

CHOOSE NORDICLINE MD3 E-VISIO FOR

- New e-ncore technology with patented air curtain
- Optimised usage of floor space
- Maximum product visibility
- More options for store layout planning
- 50% faster to install
