1. INTRODUCTION

1.1 Scope

The document "Disassembly manual" indicates how to disassemble EPTA's products. In this document are indicated the steps to follow to disassemble horizontal cabinets.

It also contains information how to protect the safety of the persons in charge of disassembling. Instructions for use are also available on: www.costan.com.

1.2 General safety information

Do never interrupt the cooling chain of displayed goods.

Before starting the disassembly procedure, disconnect the equipment from the electrical power supply and secure against re-connecting by unauthorized persons.

Ensure that the working area is sufficiently illuminated during disassembly activity and use an additional lighting source if necessary.

Beware of touching any part of the cabinet without DPI.

1.3 Reasons for a correct disassembly

In order to guarantee the correct disposal of the materials that make up the cabinet, it is important to proceed with a correct disassembly.

Correct disassembly thus allows us to increase the percentage of recyclability.

Note: the materials must be disposed of in accordance with the law or disposal regulation in force.

2. PROCEDURE

1) Secure the cabinet, disconnecting the power.

2) Position of the electrical panels.

3) Check the serial plate if the cabinet is plug-in or remote.

4) Unscrew the bottom panels.

5) Unscrew the endwalls and remove them.

6) Unscrew the bracket and remove it.

7) Remove the upper panels by unscrewing the screws.

8) Undo the screws holding the doors and remove them one by one.

9) Unscrew the screws holding the front panels. Remove the front panels.
